25 April 2018

With more than 110 renovations under her belt, **Naomi Findlay** has seen it all when it comes to overhauling houses. And with that experience comes plenty of exposure to the pitfalls of renovating which is where the idea arose for her new renovation app, *Rapid Reno Mate*, which is designed to keep track of your time, budget, trades and more.

"It gives renovators everything they need in their hand from start to finish to keep them on time, on budget with quality products and quality suppliers. I wanted to create a simple solution to help renovators at any stage of their journey," says Naomi.
